

Session 1:

Date started: 8th November 2025.

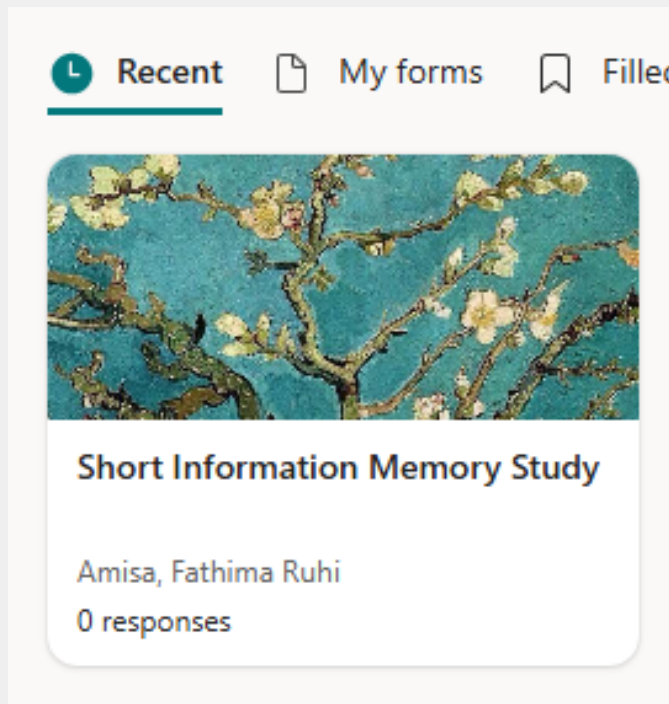

Goal: Write a survey involving two types of text: Social context and factual information. Disguise social context as factual to avoid bias or realization.

Actions taken: Goal done. I have completed writing the survey though Microsoft Forms, but it is not yet published. The texts succesfully conceal their intents to reduce bias.

Observations: Displaying the explicit gossip cues as neutral information was quite challenging. However, maximum attempts has been taken to achieve this goal.

Changes: None yet.

Next step: Upload it on Surveyswap.

The background used in this survey is the painting “Almond Blossoms” by Van Gogh.
